Home > Miller Bobcat 260 Diesel Welder/Generator w/ Remote Start/Stop GFCI 907790 DescriptionSpecsDOCUMENTSACCESSORIES New Bobcat welder/generators take up less space on trucks and trailers—leaving more room on your truck for other equipment and tools. Plus, they're easier to move safely around jobsites—even with weld cables and running gear attached. *Compared to previous model. Miller's Accu-Rated™ 11,000 watts of usable peak power is delivered for a minimum of 30 seconds. Accu-Rated means peak power is usable for maximum generator loads such as plasma cutting, Millermatic® MIG welders and motor starting. Accu-Rated peak power beats the competition's very shortduration peak or surge power. Use your peak power, it's more than a number. Versatile AC and DC weld output provide quality welds on all types of metals. DC is smooth and easy to run while AC Stick is used when arc blow occurs. With front panel maintenance displays, you know when your equipment needs to be serviced. Front panel fuel and sight gauges provide convenient fuel level indication. Note: Diesel engine will shut down before system runs out of fuel making restart easy. Lugged - not soldered - heavy internal leads for better field durability. Superior cooling technology for maximum performance and engine life. Super-tough armour to protect the welder/generator from accidental impact. Lift hook integrated into the centre frame, which bolts to the machine's base for greater durability. Takes up less space on trucks and trailers - leaving more room on your truck for other equipment and tools. Improved! Easier Maintenance With front panel maintenance displays, you know when your equipment needs to be serviced. Long Runtimes Large 45L fuel capacity means many hours of run time before refuelling. Versatile AC & DC Weld Output Provides quality welds on all types of metals. DC is smooth and easy to run while AC Stick is usedwhen arc blow occurs. Multi-Process Capability MIG, Stick, DC, AC, TIG. Smooth Generator Power Revolutionary ten degree skewed rotor design optimises generator performance. Typical equipment which can be run includes hand tools, circular saw, air compressor and flood lights. AUXILIARY OUTPUT* 2 X 15 Amp Sockets. RCD. 1 X 32 A 240 V 1PH 60Hz. * Generator auxiliary power is 60Hz, and intended for operating equipment associated with welding, such as angle grinders, drills and floodlights. Some Australian 50Hz equipment incorporating induction motors, such as pumps, fans, air compressors, refrigeration or air-conditioners, may not operate correctly and could be damaged QWS00 MIG Welding Stick Welding TIG Welding Engine Driven 3-Year Power Warranty Rugged welder/generator is great for Stick and Flux-Cored welding and designed for maintenance/repair operations, construction, farm, ranch, and generator use Smaller and lighter design New Bobcat welder/generators take up less space on trucks and trailers—leaving more room on your truck for other equipment and tools.
